Monday, 08 February 2010

WELLINGTON, New Zealand ? Monday 8 February 2010 ? linux.conf.au 2010 is over, but the generosity of its delegates will leave a lasting impression on the Life Flight Trust.

During the conference closing dinner at the Wellington Town Hall, attendees bid to win a unique opportunity to join an action-packed Westpac Rescue Helicopter winch training mission. All bids were donations to Life Flight.

Delegates could donate online with their laptops and results were displayed in real-time on an open source application created by Andrew Caudwell of Catalyst IT.

At the end of the evening a \$12,750 donation from Linux Australia brought the total funds raised to more than \$33,000.

Life Flight CEO David Irving said, ?Free open source software is founded on generosity and these supporters have certainly taken that value to heart.

?The funds raised will enable 13 people to receive emergency flights, which is a great outcome for the community.?

linux.conf.au bring together the global community of Linux enthusiasts who contribute to the operating system and the vast array of free and open source software that is transforming information technology around the world.

Life Flight Trust provides a national air ambulance service and the Wellington Westpac Rescue Helicopter. Life Flight Trust is a registered charity that relies on community donations to keep flying. For further information or to help save lives visit <http://www.lifeflight.org.nz>.

About linux.conf.au

linux.conf.au is one of the world s best conferences for free and open source software! The coming linux.conf.au, LCA2010, will be held at the Wellington Convention Centre in Wellington, New Zealand from Monday 18 January to Saturday 23 January 2010. LCA2010 is fun, informal and seriously technical, bringing together Free and Open Source developers, users and community champions from around the world. LCA2010 is the second time linux.conf.au has been held in New Zealand, with the first being Dunedin in 2006.

For more information see: <http://www.lca2010.org.nz/>

About Linux Australia

Linux Australia is the peak body for Linux User Groups (LUGs) around Australia, and as such represents approximately 5000 Australian Linux users and developers. Linux Australia facilitates the organisation of this international Free Software conference in a different Australasian city each year.

For more information see: <http://www.linux.org.au/>

Emperor Penguin Sponsors

LCA2010 is proud to acknowledge the support of our Emperor Penguin Sponsors, InternetNZ, Google, HP and IBM.
